

OneClick – make response easy with just one click

Nobody likes filling out forms

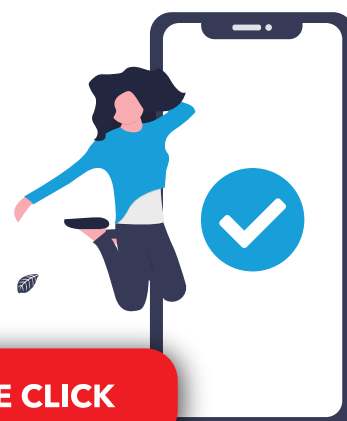

Busy teachers and school leaders are no exception.

Faced with yet another contact form to complete, responders may just give up and a potential enquiry could be lost.

But with SMC's OneClick 'Call to Action' button in your email, requesting information from you is quick and easy.

With just a click on the OneClick button, their response form is automatically filled with their contact details. No web pages to negotiate. Nothing to type-in. Their responses are fully personalised and sent to you automatically.

And because we hold some of the most up-to-date information on school staff of all kinds, you can be sure that the response you receive from your email send, is coming from a confirmed lead.

ABOUT SMC

of pupils, pupil-premium, school deprivation level, urban or rural environment and more.
